

1. When "http://localhost:4200" is entered in the browser then the following form should be displayed:

Pictor Telecom Add Plan View Plan

Create a new plan

Plan Value

GB/Day

Unlimited Calls
☐ True ☐ False

Add-ons

Type
☐ Postpaid ☐ Prepaid

Add Plan

2. Add validations for form controls as below. Use field names as mentioned below and use validations inside a

2. Add validations for form controls as below. Use field names as mentioned below and use validations inside a component only.

Field name	Validations Required
planValue	Required validation
data	Required validation, Maximum 200
unLimitedCalls	Required validation
addOns	Required validation, Pattern (only alphabets and special characters)
planType	Required validation

3. When **Add Plan** is clicked view should be displayed as below:

Pictor Telecom
Add Plan
 View Plan

Add a new plan

Plan Value

GB/Day

Unlimited Calls

4. Validation messages should be rendered as below:

Create a new plan

Plan Value

Please Enter Plan Value

GB/Day

Please Enter GB/Day

Unlimited Calls

☐ True ☐ False

Add-ons

Please Enter Add-ons

Type

☐ Postpaid ☐ Prepaid

Add Plan

5. On successful execution, the success message should be displayed as shown below:

Create a new plan

Plan Value

500

GB/Day

80

Unlimited Calls

☒ True ☐ False

Add-ons

NA

Type

☐ Postpaid ☒ Prepaid

Add Plan

Plan is created with planId 1006

6. In case if you are trying to add the plan that is already there then the error message should be displayed as shown below:

Execute View Result

6. In case if you are trying to add the plan that is already there then the error message should be displayed as shown below:

Create a new plan

Plan Value

500

GB/Day

80

Unlimited Calls

☒ True ☐ False

Add-ons

NA

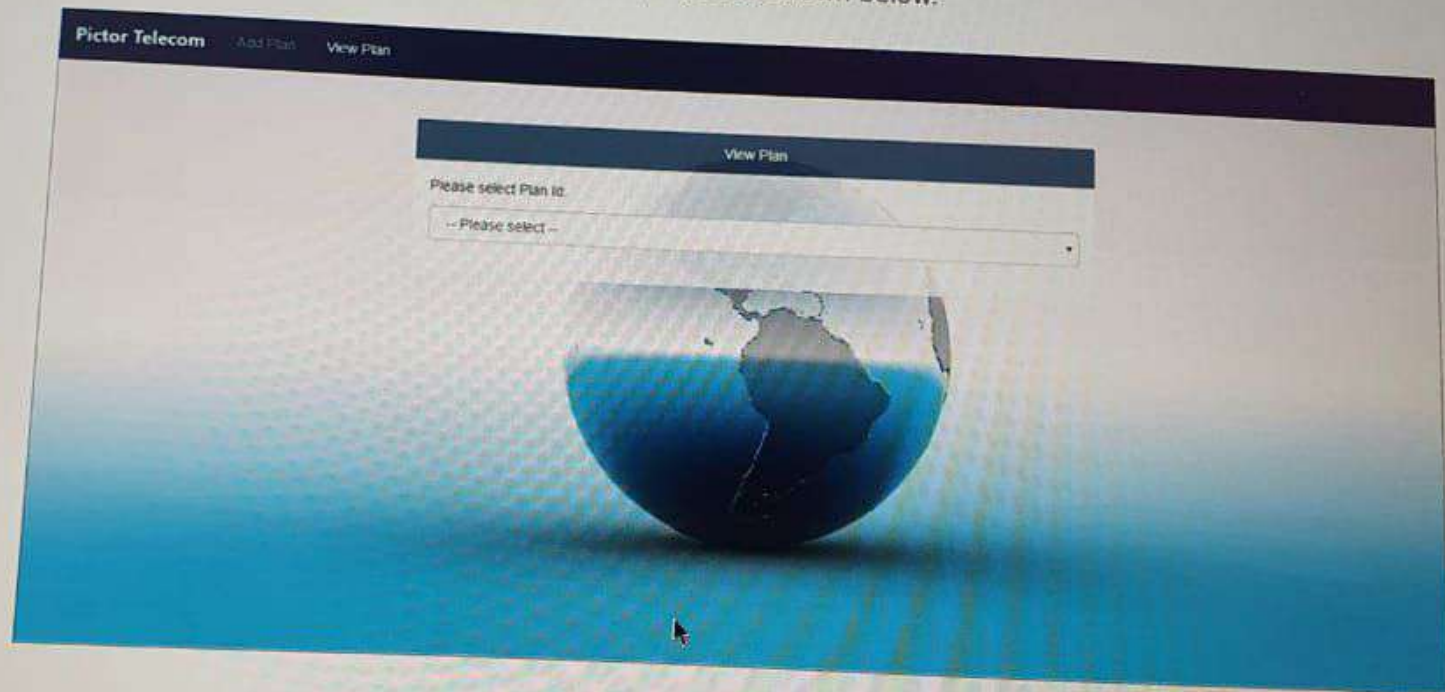

Type

☐ Postpaid ☒ Prepaid

Add Plan

Plan is already created for this plan value and type

7. When **View Plan** is clicked view should be displayed as shown below:

8. Plan Ids should be populated into the dropdown

Execute

View Result

9. When user selects the plan id then the details of that particular plan id should be shown as below:

View Plan

Please select Plan Id:

1005

Plan Value	Data/day	Unlimited Calls	AddOns	Plan Type	
\$100.00	500 MB	true	Handset-protection, Netflix Subscription	Prepaid	Delete

10. Transform the

- **Plan Value field** - Render the value in the format shown above.
- **data field** - If the **data** is less than 1, it should add unit as "MB" else it should add unit as "GB"

Note: Use custom pipe for transforming the data field

2. If user clicks delete, it should delete the planId and display following message

Execute
